Baking Cookies

1. Sarah needs 3 cups of flour and 2 cups of sugar for the cookies. How many cups of ingredients does she need in total? (+ ___ = ___)

2. There were 10 cookies on the baking sheet. Sarah took out 4 cookies to cool down. How many cookies are left on the baking sheet? (- ___ = ___)

3. The recipe requires 8 eggs. Sarah only has 5 eggs. How many more eggs does she need? (needs 8 - has 5 = ___)

4. There are 7 chocolate chips in one cookie and 5 chocolate chips in another cookie. How many chocolate chips are there in total? (+ ___ = ___)

5. The oven can bake 9 cookies at a time. Sarah wants to bake 18 cookies. How many batches of cookies does she need to bake? (needs 18 / 9 cookies per batch = ___)

6. There were 10 cups of milk in the fridge. Sarah used 2 cups for the cookies. How many cups of milk are left? (- ___ = ___)

7. Sarah decorated 3 cookies with sprinkles and 4 cookies with frosting. How many cookies did she decorate in total? (+ ___ = ___)

8. The recipe needs 6 tablespoons of butter. Sarah only measured out 4 tablespoons. How many more tablespoons does she need? (needs 6 - has 4 = ____)

9. There were 8 cookies left after Sarah shared some with her friends. She baked 10 cookies in total. How many cookies did she share with her friends? (baked 10 - left 8 = ____)

10. Sarah wants to put 5 cookies in each bag. She has 7 bags. Does she have enough cookies to fill all the bags? (has 7 bags * needs 5 cookies per bag = 35 cookies; baked 10 cookies < 35 cookies, so No)
